Summary

Full-stack developer with 2+ years of experience in React, Node.js, Django, Python, and AWS. Built a SaaS platform serving 70+ dental clinics – developed marketing automation (social media bulk publishing, Google Ads), HR management (shift scheduling, payroll analytics), and third-party API integrations. Experienced with TypeScript, MongoDB, DynamoDB, Lambda, REST APIs, and LLM-based data extraction.

Skills

Technical: Python, JavaScript, TypeScript, Node.js, React.js, Django, MongoDB, DynamoDB, AWS (Lambda, API Gateway, S3, SES, CDK), HTML5, CSS3, Git, REST APIs, LLMs

Tools: Postman, Ayrshare, Open Dental, VS Code, GitHub

Experience

Software Engineer, Today's Dental Services – Hyderabad June 2025 – Present
Multi-tenant SaaS platform for dental practice management, serving 70+ clinics across the US.

Marketing Module:

- Built a design studio where clinics create one social media template and it auto-fills each clinic's name, logo, and contact – turning 1 design into 70+ personalized versions instantly
- Added bulk publishing to Facebook, Instagram, LinkedIn, and Google Business across all locations in a single click, saving hours of manual posting
- Developed Google Ads management with campaign creation, location-based targeting, budget controls, and performance tracking

HR Module:

- Built shift scheduling with timezone handling across US states – replaced Excel tracking with a centralized calendar for all clinic locations
- Created payroll dashboards comparing scheduled vs actual hours with overtime and advance pay calculations – giving managers same-day visibility into labor costs
- Added Advance Pay with approval workflows and automatic tracking – eliminated back-and-forth emails between staff and HR
- Set up automatic shift removal when leave is approved – no more double-bookings on the schedule

Dentipal:

- Built a job marketplace for dental clinics to post shifts, review applicants, negotiate rates, and hire – all in one place

Tech: React, TypeScript, Node.js, AWS (Lambda, DynamoDB, S3, SES, CDK), Ayrshare API, Open Dental API

Fullstack Developer, Innovon.AI Technologies Aug 2024 – May 2025

- Built a claims portal that uses AI to pull data from uploaded insurance documents – replacing manual data entry for Home & Auto claims
- Created an expense tracker that reads receipts using AI, stores them per user, and generates downloadable Excel/CSV/PDF reports with date filters

Tech: Django, Python, React.js, MongoDB, LLMs, Postman

Frontend Developer, Scintillate Informatics Pvt Ltd Mar 2024 – Jul 2024

- Contributed to web application development and gained experience in professional software engineering practices

Education

B.Tech in Computer Science and Engineering, Sree Chaithanya Institute of Technological Sciences • CGPA: 7.33 2019 – 2023

Certifications

LangGraph Course – LangChain Academy • Microsoft Azure Data Fundamentals • Full Stack Web Development – Edunet Foundation
